Art Unit: 2612

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 2, 4 and 5, drawn to an electronic camera obtaining images of tourist spots, classified in class 348, subclass 231.99.
- II. Claims 3, 6 and 7, drawn to an electronic camera connecting to a printing shop, classified in class 348, subclass 207.2
- III. Claims 8 and 9, drawn to an information obtaining system including map data, classified in class 348, subclass 231.3.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I, Group II and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group I or Group II has separate utility such as an electronic camera is used for tourist attractions or to obtain printing copies. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by

Art Unit: 2612

their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I or II is not required for Group III or Group I or III is not required for Group II or Group II or III is not required for Group I, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
